FOR IMMEDIATE RELEASE

Governing Board to meet

September 8, 2006

Portland, Oregon: The Governing Board of the Oregon Department of Geology and Mineral Industries (DOGAMI) will meet at 10:00 AM, September 8th, 2006, in Room 965 of the Portland State Office Building to discuss Board business, Budget Issues, Regulatory Issues and the state of the Agency. The complete agenda can be found online at:
http://www.oregongeology.com/sub/portoff/Board2006-Sept8_agenda.pdf

The Oregon Department of Geology and Mineral Industries is an independent agency of the State, and has a broad responsibility in developing a geologic understanding of natural hazards. We then make this information available to communities and individuals to help reduce the risks from earthquakes, tsunamis, landslides, floods and volcanic eruptions. We assist in the formulation of state policy where understanding of geologic materials, geologic resources, processes, and hazards are key to decision-making. The Department is also the lead state regulatory agency for mining, oil, gas and geothermal exploration, production and reclamation.
